Microdermabrasion

The most natural way to evenly and safely exfoliate the skin without chemicals or laser. Using corundum powder (crystals), or Diamond Tome (crystalless) to finely resurface superficial skin layers, your face will become more radiant and youthful, and feel smoother to the touch.

Microdermabrasion is a skin care procedure designed to removed imperfections like, scars, age spots, acne and fine lines. Microderm. also helps improve the appearance of sun damaged skin by gently abrading the skin surface. This allows for a deep exfoliation without causing any further damage to the skin.
